This Season's Popular Casio Collection

CASIO
is digital

CASUAL/STANDARD

The 'Casual' Way Casio Delivers 'High-Octane' Timekeeping.

This field of modern watches puts more individuality into watch performance whether you want to treat yourself to some real time talent with a faceful of features, or simply get a high performance, high economy time-tracker, Casio has the watch that's right. The lithium models give more mileage – with a battery life up to 5 years, while the neat low-end units are front-runners with traditional Casio style and precision.

WATER SPORTS

People who take to the water will surely take to these deep-tested digitals. Above or below the waves, in a pool or in a downpour, these are the watches that ignore water. As well as giving the wearer the comfort of knowing he'll never have to worry about water, there are also no more problems about battery power. There's a full 7 years of operation stored into the lithium batteries of these watches. Always precise, with a versatility that makes them a welcome accessory in the office or in the ocean. Available as a lightweight sports model, or in dressy stainless steel.

WATER SPORTS

The thrills, excitement and essence of living are summed up in this new deep-tested watch. Totally waterproof, light, slim, clever, exceedingly handsome. The snappy face flicks across the seconds with a precision that says each one is worth living. There are five years of lithium power in its slim case and all the features you'd expect of a watch that's in time with life and sports.

JOGGING DIGITAL

Measures Every Pace of Every Race

These watches take any daily jogging program in their stride. With an electronic pace-tone every step can be monitored and jogging pace can be regulated to any speed the jogger wants. The watch tells the runner his/her daily performance by automatically coordinating stride length with pace to give distance covered and elapsed time. They come in a sporty lightweight case that's never a weight to wear and also have 12/24 hour formats, full lap timing, an alarm, stopwatch and a fingertip calculator.

CALCULATOR

Finger Tappin' Funwear & Workwear— Now Slimmer than Ever

To this very talented line-up of watches we have now added a version that's trimmed down to mere 6.6 mm. And it gets to this wafery thin size without losing any of its top-flight versatility. There's a real, finger-responsive calculator panel and full time, timing and alarm features. With the popular calculator panels of these watches comes a variety of other great ideas, like a reaction game, melody reminders and all-important date features.

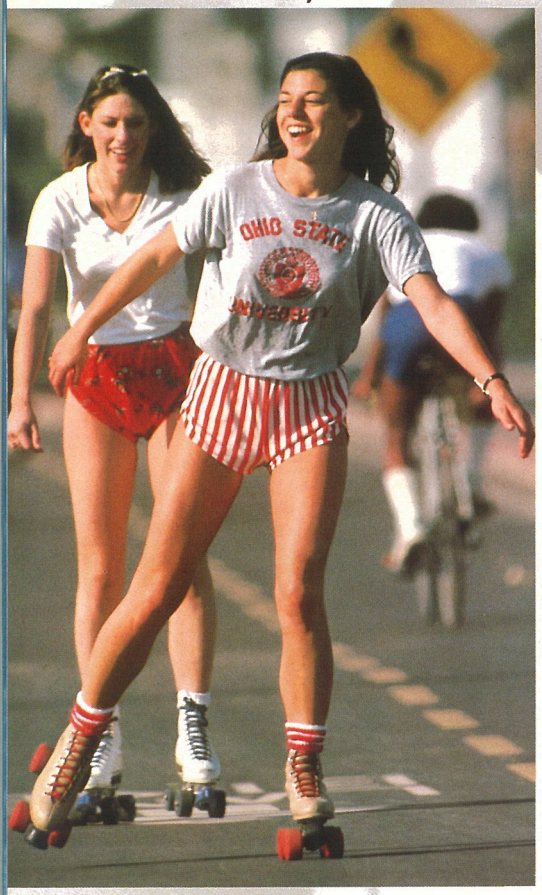
CASUAL/STANDARD



Now, Elegance without Expense

Casio proves that digitals can be both desirable and economical with this range of well-designed ladies' watches. Displays are big and distinct, and behind them is an easily available source of time information – like the month, date, auto-calendar and a stopwatch. Compactly encased, these modules have the lightness and brightness that makes them a pleasure to wear every day.

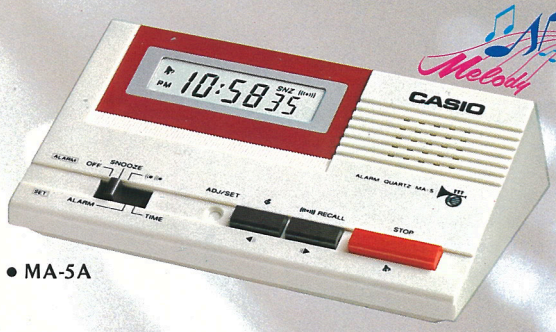
Bright New Faces for Table or Desk

Here's a modernistic right-angle for the right time, all the time. It sits with distinction on a desk, bedside table or by the phone and gives the time in a clear, crisp manner. Also has a useful 'Snooze' function for rousing sleepy-heads.

• DQ-300

Two cleanly designed, wedge-shaped clocks with the natural modern look for tabletop time precision. Both have a highly audible alarm and 'Snooze' melody. And both feature an up-to-the-second display.



• MA-5A

Round-and-round go the seconds on this Dutch design display, making an appealing tabletop timekeeper. The windmill ticks off each second.

• DA-101

• MA-5B

Time with the fresh tang of the sea. Ocean liner in the display cruises through the day puffing out smoke signals every second.

• DA-106

Travellers' Clocks, In Tune with the Times

Casio says it in neon, in New York, overlooking busy Times Square.

A tiny time center with a swell-sound alarm to help keep punctual. It has a 'Snooze' function to remind you your alarm has already sounded, so you can keep in time without clock-watching. For a desk or tabletop there is a handy flip-out back stand.

• PQ-5

Two country-style clocks that have the wise old owl blinking and flapping away the seconds on an attractive animated display. It also features big, easy-reading digits. Controls are simple to set and, for night owls, there's a 'Snooze' function that helps bring you wide awake if you've overslept the alarm.
