

## Safety precautions (IMPORTANT)

This manual contains instructions that should be strictly followed at all times not only for optimal use, but to prevent any injuries to yourself, other persons or property. We encourage you to read the entire booklet (especially, pages 12 to 19) and understand the meaning of the following symbols:

- Safety advisories are categorized and depicted in this manual as follows:

 <b>DANGER</b>	Highly likely to cause death or serious injury
 <b>WARNING</b>	Can cause serious injury or death
 <b>CAUTION</b>	Can or will cause minor or moderate injury or damage

- Important instructions are categorized and depicted in this manual as follows:

	Warning (caution) symbol followed by instructions that should be followed or precautions that should be observed.
	Warning (caution) symbol followed by prohibited matters.

## Features

There are following four different designs of multi-hand analog quartz watch.

- Model with date/day indicators (Cal. 6325)
- Model with date/day indicators and a moon age display (Cal. 6320, 6321)
- Model with date/day/24-hour indicators (Cal. 6329)

0  
1

2

**2**

**0**

- You can not fast-forward the day setting. The day changes every time you advance the hour
- Be sure to rotate the crown clockwise to set the hour and minute hands. If you rotate it
- The day changes during a.m. time.

### Setting the date

1. Pull the crown out one step to position **I** .

2. Rotate the crown counterclockwise to set the date.

Do not change the date while the hour hand is indicating between 9 p.m. and 1a.m. If you change the date during this time, the date may not change to the following day.

3. Return the crown to the normal position **0** .

### Setting the Moon Age

The moon age indicator tells the moon age and not its actual shape. Refer to this indicator as a rough indication of the moon age or the moon phase.

## Setting the Time and Calendar

---

### a. Model with moon age scale

#### 1. Determine the moon age for the day.

Look in a newspaper to find out the moon age for the day, and then set the moon shape while referring to "How to see the moon age" shown in the right.

#### 2. Pull the crown out one 'step' to position **1**.

#### 3. Rotate the crown to turn the moon shape clockwise, and then set the center of the moon to 4.4 on the moon age scale. (Example: for moon age 4.4)

### b. Model without moon age scale

#### 1. Determine the moon age for the day.

Look in a newspaper to find out the moon age for the day, and then set the moon shape while referring to "How to see the moon age" shown in the right.

#### 2. Pull the crown out one 'step' to position **1**.

#### 3. Rotate the crown referring to "How to see the moon age" so that you can set the moon shape to the closest moon age (0, 7, 15, or 22).

### Moon age

The moon age depends on the period between new moons. This period is approximately 29 and half days.

### c. How to see the moon age

New moon Moon age: 0 (Spring)	First quarter Moon age: 7 (Neap)	Full moon Moon age: 15 (Spring)	Last quarter Moon age: 22 (Neap)
			

You can set the moon age more precisely at new moon (moon age: 0) or full moon (moon age: 15).

- Refer to the watch dial and the case back for the indication of the water resistance of your
- WATER RESIST(ANT)  $\times$ bar may also be indicated as W.R. $\times$ bar.
- Non-water resistant models are not designed to come into contact with any moisture. Take care not

- Water resistance for daily use (to 3 atmospheres) means the watch is water resistant for
- Upgraded water resistance for daily use (to 5 atmospheres) means that the watch may be worn while
- Upgraded water resistance for daily use (to 10/20 atmospheres) means that the watch may be worn
