NOTES ON OPERATING THE WATCH

DAY AND TIME SETTING

- When adjusting the day hand, turn the crown slowly.
- When the time is set, the 24-hour hand move correspondingly with the hour and minute hands.
- When setting the hour hand, check that the 24-hour hand is correctly set.
- When setting the minute hand, first advance it 4 to 5 minutes ahead of the desired time and then turn it back to the exact minute.

DATE SETTING

- It is necessary to adjust the date on the first day after a 30-day month and February.
- Do not set the date between 10:00 p.m. and 2:00 a.m., as the date may not change properly. If it is necessary to set the date during that period of time, first change the time to any time outside of this period, set the date, and then reset to the correct time.

Years

English

**WARNING**

- Do not remove the battery from the watch.
- If it is necessary to take out the battery, keep it out of the reach of children. If a child swallows it, consult a doctor immediately.
- Never short-circuit, tamper with or heat the battery, and never expose it to fire. The battery may burst, become very hot or catch fire.

**CAUTION**

- The battery is not rechargeable. Never attempt to recharge it, as this may cause battery leakage or damage to the battery.

TO PRESERVE THE QUALITY OF YOUR WATCH

WATER RESISTANCE

● Non-water resistant

If “WATER RESISTANT” is not inscribed on the case back, your watch is not water resistant, and care should be

taken not to get it wet as water may damage the movement. If the watch becomes wet, we suggest that you have it checked by an AUTHORIZED PULSAR DEALER or SERVICE CENTER.

● Water resistance (3 bar)

If “WATER RESISTANT” is inscribed on the case back, your watch is designed and manufactured to withstand

up to 3 bar, such as accidental contact with splashes of water or rain, but it is not designed for swimming or diving.

● Water resistance (5 bar)*

If “WATER RESISTANT 5 BAR” is inscribed on the case back, your watch is designed and manufactured to withstand

up to 5 bar and is suitable for swimming, yachting and taking a shower.

● Water resistance (10 bar/15 bar/20 bar)*

If “WATER RESISTANT 10 BAR”, “WATER RESISTANT 15 BAR” or “WATER RESISTANT 20 BAR” is inscribed on the

case back, your watch is designed and manufactured to withstand up to 10 bar/15 bar/20 bar and is suitable for taking a bath, shallow diving, but not for scuba diving. We recommend that you wear a PULSAR Diver's watch for scuba diving.
