TO START

- Press the ON(S1) button to turn the unit on. You will automatically enter the demonstration mode.
- Press the START(S2) button to begin the game.
- The game will automatically turn off if no buttons are pressed for 3 minutes while in the demonstration mode.

SOUND EFFECT

- Press the MUTE (S3) button to turn the sound on or off. The sound is default on when the unit is turned on.

TO PLAY THE GAME

- Each level consists of three rounds. The total number of games amounts to 27. The attack, in the second round, comes not only from the bombers, but also from warships.
- When the player's submarine is hit by the enemy three times, GAME OVER is shown on the LCD and the game goes into the DEMO mode.
- Until the missile or torpedo fired from the player's submarine hits its target or disappears, no missile or torpedo can be fired. When the player's submarine gets hit three times and the game is over, a sound is played to express regret.
- Each time the player hits the enemy and scores are added, the highest score recorded is compared with the present score.
- The moving range of the player's submarine is limited to the upper and lower waterways. The player uses the up, down, left and right shift keys to move the submarine.

SCORING METHODS

- 20 point is awarded when the enemy's bomber or warship is hit at the upper waterway.
- 10 point is awarded when the enemy's bomber or warship is hit at the lower waterway.
- 10 point is awarded when the enemy's submarine is hit by a torpedo.
- 5 point is awarded when a round is completed and no hitting happens to the player's submarine.

NOTE:

- Please keep this instruction manual since it contains important information.
- Under the environment with electrostatic discharge, the sample may malfunction and require user to reset the sample.
