## STOPWATCH MODE

The Stopwatch Mode lets you measure elapsed time, split time, and lap time. The range of the stopwatch is 25 hours, 59 minutes, 59.99 seconds.

### To measure elapsed time

1. Press **(A)** to start the stopwatch.
2. Press **(B)** to stop the stopwatch.
3. You can resume the measurement operation by pressing **(A)** again.
4. Press **(A)** to clear the stopwatch to all zeros.

#### To record split times

1. Press **(C)** to start the stopwatch.
2. Press **(A)** to display the timing up to that point. Stopwatch timing continues internally.
3. Press **(A)** to clear the split time and to continue time measurement on the display.
  - You can repeat steps 2 and 3 as many times as you want.
4. Press **(C)** to stop the time measurement.
5. Press **(A)** to clear the stopwatch to all zeros.

#### To time first and second place finishes

1. Press **(C)** to start the stopwatch.
2. Press **(A)** when the first finisher crosses the line, and record the time.
3. Press **(C)** when the second finisher crosses the line.
4. Press **(A)** to display the finishing time of the second finisher.
5. Press **(A)** again to clear the stopwatch to all zeros.

#### AUTO DISPLAY FUNCTION

The upper part of the display continually repeats a short demonstration if you hold down **(B)** for a few seconds in any mode. The demonstration is also performed when you illuminate the display by pressing **(D)**. Press any button to stop the demonstration.

#### Notes

- The Auto Display function cannot be performed while you are making settings (i.e. while digits or other settings are flashing on the display).
- Frequent use of the Auto Display function shortens the battery life.
